

# INCIDENT BASE UNITS

When disaster strikes, we **quickly mobilize** to set up an operations center for managing the crisis response. Our Incident Base Units, or **Camp-In-A-Box**, enable us to rapidly establish a command center to coordinate resources, communicate with stakeholders, and develop strategic action plans. We design these tactical facilities **to handle high-risk incidents** of large scale, complexity, and potential impact.

Our Incident Base Units **deploy** for events such as natural disasters or humanitarian emergencies that require large-scale, **multi-agency collaboration** by providing a central hub for information sharing and joint decision-making. Our rapidly deployable Incident Base Units are **crucial for orchestrating** an effective, unified emergency response and recovery operation. We pride ourselves on our ability to swiftly launch **mission-critical support** facilities wherever and whenever they are needed, helping to support communities in their darkest hours.

## MISSION-CRITICAL. RAPID DEPLOYMENT. CAMP-IN-A-BOX.

### ☐ Flexible Configuration

Choose from two flexible IBU configurations to meet your specific needs and size parameters. Options include our Camp-in-a-Box with ten office trailers, and our Camp-in-a-Sack with five office trailers, each trailer is equipped with 7 workstations.

### ☐ Fully Equipped

All Camp-in-a-Box ADA-compliant officer trailers feature a full range of office equipment to maximize productivity. Keep the lines of communication open with telephones, Internet access, copy and fax machines.

### ☐ Working Comfort

All office trailers include HVAC, ergonomic chairs, awnings to protect from sun and heat, wheelchair lifts for added accessibility, and more.

### ☐ Powered Up

Keep your base camp running and well-lit for added safety and productivity, with light towers and whisper-quiet commercial generators for any power need. All power cables and distribution boxes are outdoor rated and watertight for any weather environment.

### ☐ Keep It Clean

Help your base-camp staff maintain a clean, hygienic, and safe environment with our hand washing trailer featuring 12 sinks with hot/cold water, and 40 garbage cans. Our refrigerated trailer with freezer keeps critical food, medicine, and other items preserved for safety.

## INCIDENT BASE UNITS

**10 Office Trailers:** two entry doors each, 7 workstations per trailer.
